Extraordinary"*

SINCLAIR COLLEGE  
BUILDING #12  
Dayton, Ohio

*Registration Begins at 7:30 AM*  
*Lecture Begins at 8:30 AM*  
**5.5 CEUs**

## DR. ANKUR GUPTA

Dr. Gupta, after completing a one-year GPR in Cleveland, started a practice from scratch in 2005. Armed with what he considered adequate knowledge, hand skills, and a personable demeanor, he watched as his practice floundered, finances became un-predictable, and his lower back and spirit toward life became worrisome. Rather than continue the trend, he made a guinea pig out of his office, family, and self; attempting any and all personal and professional "experiments" in self-improvement. More than a decade later, he enjoys excellent new patient numbers and case acceptance, a solution oriented dental team; and most importantly, a meaningful and positive identity. He happily shares the failures and successes with dental and community groups throughout the country, always ending his presentations with practical, implementable, step-by-step ways to be better.

Dr. Gupta is a certified AGD/PACE provider.

*101st Annual Clinic Meeting Registration*

# “Turning Ordinary into Extraordinary”

Every office is made up of individuals who all possess a multitude of flaws. In even the most dynamic, successful, consistently happy organizations, there still exists flawed individuals, far from perfect. How did a group of ordinary people create something extraordinary? Vision, systems, personal reflection, honesty about our own unique drawbacks, along with many more pragmatic and attainable frameworks that all dental offices can create. Dr. Gupta will not only introduce steps to take in order to optimize the practice structure, but will also challenge each participant to reflect upon their own personal daily habits and routines, and how small changes can lead to a much improved practice and personal life.

## OBJECTIVES:

- Gain strategies and tools for inspiring a culture of self-directed leaders in the practice
- Explore a culture of autonomy in which team members feel ownership with practice improvement and implementation
- Identify internally designed accountability systems
- Completely re-think the norms of the patient experience
- Discover the #1 happiness and relationship killer that also affects your ability to perform more comprehensive dentistry
- Examine the culture, habits and health of those living in Blue Zones and learn why they live disproportionately longer, more robust lives
- Introduce dynamic and underutilized clinical changes that are valuable, needed by patients, but also easy on our back and hands
- Identify steps to prevent and treat burnout
- Create a "second-look" at the clinical repertoire at the office, and gain knowledge about the incredible potential dentists have at providing truly life-changing clinical knowledge.

## REGISTER BEFORE MARCH 1ST

LECTURE ATTENDEE:	FEE:
DDS Members .....	\$315.00
