

**Dayton Dental Society Presents:**  
**Dr. Brad Purcell & Dr. Ryan Mizumoto**  
**“Digital Workflow for**  
**Posterior Implant FPDs”**  
**Friday, December 9, 2022**  
**~ Sinclair College, Bldg. #12 ~**  
**Dayton, OH**

Co-Sponsored by:

~ 6 CEUs ~

**Registration 8:30am**

**Seminar is 9:00am – 4:30pm**

**TOPICS:**

Digital implant restorations have been in existence for over ten years. During this time there has been many evolutions in scanners, scan copings and methods and types of digital implant models. As the technology has evolved much has been learned about the accuracy and inaccuracies. This course will discuss the evolution of the technology and how it applies to multiple posterior implant FPDs. Additionally, clinical sequences will be outlined to simplify the process and optimize the occlusion and fit of the prosthetics, with the least amount of frustrations.

**OBJECTIVES: At the conclusion of this course, the participants should be familiar with**

- Types of scanners
- Types of scan copings
- Differences in types of digital implant models
- Sequences for posterior implant FPDs
- The needs and uses of verification jigs
- Posterior implant occlusion
